

Why is my Credit Score Important?

1. A good credit score can help you get better interest rates on loans.
2. A good credit score can help you get great deals on credit cards, insurance premiums, apartments, and cell phone plans.
3. If you have a bad credit score you can end up paying more in the long run because of higher interest rates.

A banks and other lenders use your credit score to determine how risky you are to loan money to.

We believe that ALL people deserve a chance to learn and succeed.

Ascendant Community Education ("ACE") partners with banks and other financial services companies to provide free financial literacy education to low to moderate income households.
