

Why Should I Have a Social Security Account?

If you are an adult it is important to sign up for a Social Security Account regardless of your age. With your Social Security online account you can:

- Track your earnings
- Estimate what your benefits will be
- Find out when you are eligible for Social Security or when to apply
- Apply for different types of Social Security
- Sign up for Medicare
- Appeal the status of an application

If you are married or have been married for more than 10 years, you may be entitled to benefits based on your spouses work history. Check your eligibility even if you are divorced or if your spouse has died.
